Stockholders Shocked.

American Can Strong.

Wabash stockholders will be given a

shock when the plan of reorganization

By International News Service. EW YORK, June 17 .- The under lying strength of the stock market was displayed today when it crept slightly higher on practically no business. The traders were very bearish, but are afraid to sell. They are trying to break the list by starting false rumors, but little is being accomplished. Trading for the day amounted to less than 150,000 shares. Money showed a stiffening tendency on demand from abroad. Steel prices crept higher. Stocks of copper metal were reduced. Rio Tintos rose to a high record in London. Because of the improving crop outlook politics was largely ignored. If it had any influence the Roosevelt gain helped the market. Opinion is much diviged as to what influence the actual nomination lying strength of the stock mar-

shock when the plan of reorganization is announced, for it will provide for a real reorganization. It is understood that the fixed charges will be cut down at least \$1,500,000 a year from present figures. This will put the charges down to an amount less than the average earnings of the road for the last seven years and will make the bonds safe investments. The 4 per cent bonds were up? points today. No new bonds or securities of any kind are to be issued in the course of the reorganization, but the entire burden is to be carried by the stockholders. This will make necessary an assessment of \$40 a share or more. The history of Western Maryland is to be repeated. All this will hurt, but in the end will be best for the stockholders, who will thus be left in a position to get some dividends instead of merely looking forward to another reorganization. celpts of grain and flour were smaller than the week preceding.

Prices of stocks were irregular and weaker. Canadian Pacific recovered the greater part of its decline however. Reading was the strongest of the specialities, with underlying strength in Union Pacific and United States Steel. Final dealings were attended by moderate activity.

There were two dividend announcements of interest, one that the Colorado Fuel & Iron company had resumed payment on preferred shares, and an increase in the quarterly disbursement by one of the Montana copper companies, the North Rutte.

the Montana copper companies, the North Butte.

The only feature of note in the bond market was an advance of two points in Wabash refunding 4s Prices elsewhere inclined to irregularity. Total transactions (par value) amounted to \$2,094,000. United States bonds unchanged on call.

## WHEAT QUOTATIONS

and Too Damp Southwest for Grain Crop.

CHICAGO, June 17.-Assertions that the weather was too cold northwest and too damp southwest helped today to advance wheat. The market closed strong to 2 above Saturday night.

Wheat quotations at one time suffered a sharp setback owing to reports of crop improvement in Kansas and because of rumors of large sales of new wheat from Oklahoma. Denials of Oklahoma stories, however, brought about a re-newal of buying but offerings were small. September fluctuated from \$1.032

smail. September fluctuated from \$1.03\(^1\) to \$1.04\(^2\), with last sales \$\epsilon^2\) to \$1.04\(^2\), with last sales \$\epsilon^2\) to \$1.04\(^2\), with last sales \$\epsilon^2\) to respect to \$1.04\(^2\). Corn acted heavy most of the session but toward the close rallied in sympathy with wheat. September ranged from 70\(^2\) to 71\(^2\), closing firm at 71\(^2\), precisely Saturday night's level. No. 2 yellow was quoted at 74\(^2\)74\(^2\). Onts—The late upturn in other grain affected oats, but previously the market declined owing to liquidation in July. September ranged from \$40\(^2\)40\(^2\)60\(^2\) to \$40\(^2\)60\(^2\)60\(^2\)60\(^2\)74\(^2\)60\(^2\)74\(^2\)60\(^2\)74\(^

Coffee Futures Steady.

American Can Strong.

Strength of American Can stocks was explained today when it was discovered that the same interests that went into American Beet Sugar more than a year ago and carried it up some 40 points to its present high level has made a detailed examination of the business of the Can company and has gone into it just as it went into Beet Sugar. A banker identified with this interest said today that Daniel G. Reid had nothing to do with the advance of Can above 30 and that this would have become known had the congressional money trust investigating committee gone ahead with its proposed probing of the Can deal.

It was the discovery of this fact that caused the matter to be dropped so suddenly by the investigators.

Some of the minor industrials were strong particularly Colorado Fuel & Iron preferred, which advanced 5 points on declaration of a dividend of 5 per cent on account of the accumulation of 72 per cent. Quicksilver was also higher, as developments are expected soon. Stocks of new copper mines were in demand, especially those selling for a small number of dollars a share. #### Nevada Man Rents Safe Deposit Box

Two days ago a resident of a Nevada mining camp sent to us a money order for \$1.50, together with a sealed package of papers. He said that he wished to rent a box so that his papers could be stowed away in a safe place.

We selected a box for him, put his package in it, and sent him the keys. He will be able to secure his papers by mail whenever he wishes them, and in the meantime he will not have to worry about them.

No matter where you live, if you have only a single deed or insurance policy, you ought to rent a box in the impregnable vaults of the NATIONAL COPPER BANK.

Remember, it only costs \$1.50 a year to be absolutely safe.

# GLOOMY-

"Weakness" is the cause of more sorrow and suffering than all other allments combined I see the victims of this disorder on every hand, his whole appearance proclaiming to all the world his trouble and tending to blight his existence. My treatment cures disordered men by overcoming and removing the effects of disorders. It stops all waste and quickly restores the victim to what nature intended—a healthy and vigorous man, with all his functions and power complete.

Don't be a weakling, a failure, and your life a miserable existence. I am a man of independent means, the curing of my patients is my first and only thought. In this I differ widely from grasping ductors who think only of their fee and care little for the welfare of their follow men.
